

# 3-D Trading

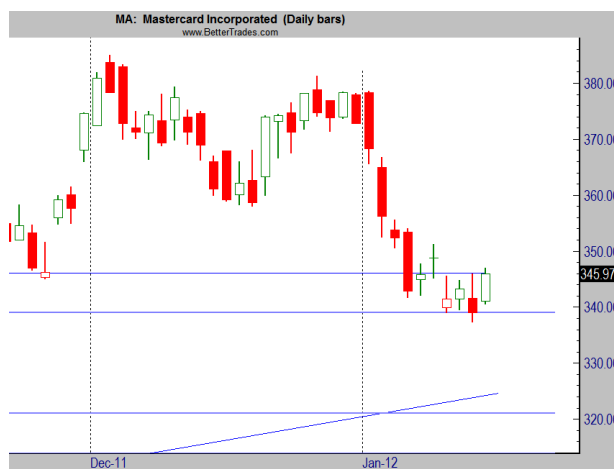

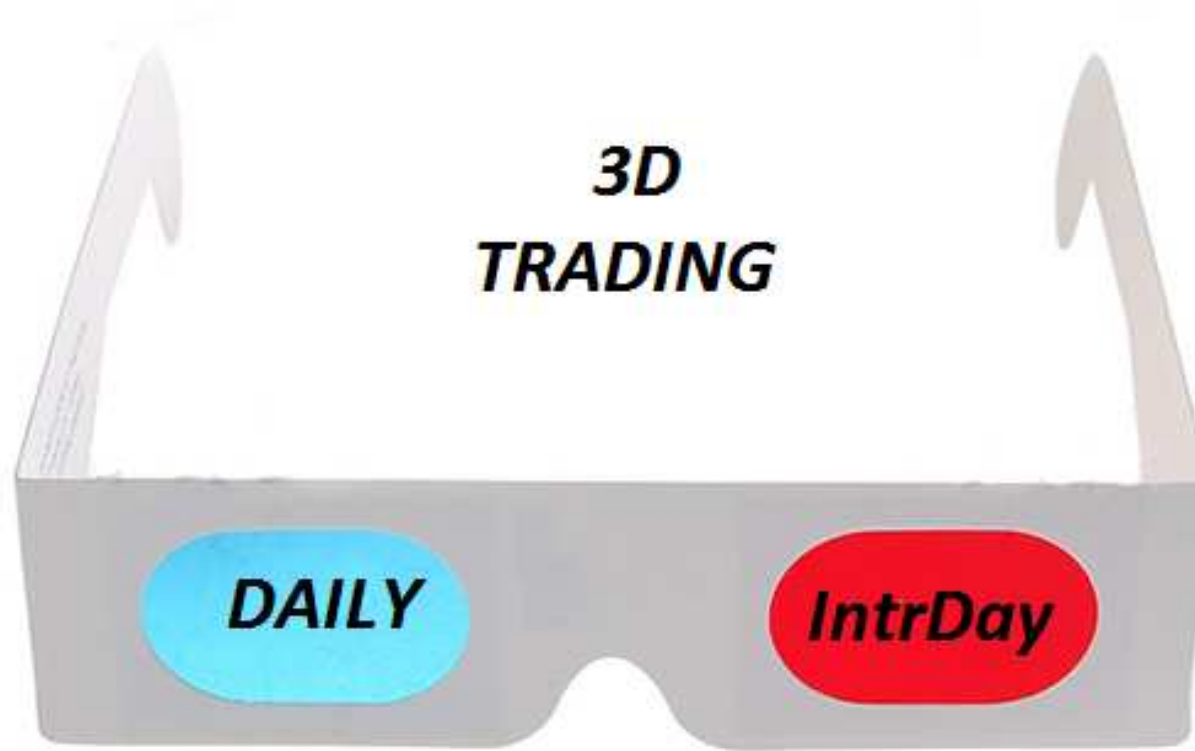

By Ryan Litchfield

Neither Better Trades or any of its personnel are registered broker-dealers or investment advisers. I will mention that I consider certain securities or positions to be good candidates for the types of strategies we are discussing or illustrating. Because I consider the securities or positions appropriate to the discussion or for illustration purposes does not mean that I am telling you to trade the strategies or securities. Keep in mind that we are not providing you with recommendations or personalized advice about your trading activities. The information we are providing is not tailored to any particular individual. Any mention of a particular security is not a recommendation to buy, sell, or hold that or any other security or a suggestion that it is suitable for any specific person. Keep in mind that all trading involves a risk of loss, and this will always be the situation, regardless of whether we are discussing strategies that are intended to limit risk.

Also Better Trades' personnel are not subject to trading restrictions. I and others at Better Trades could have a position in a security or initiate a position in a security at any time.

# 3D TRADING

# Is There Anything To See?

- Not every day has significance
- Some days it is exactly what it is
- The point is – when there is a clue – you get it
- The stock traders do not trade end of day
- Ongoing drama and activity is remembered from day to day
- You don't have to play intraday but...
- You should take it into account

# Combining Time Frames

- Daily summary charts
  - Two dimensional
- Intraday Charts
  - Add a third dimension
  - Give confirmation
  - Depth perception

# Candlestick Interpretation

- Composition
  - Internal construction of candle
- Accuracy in patterns varies a lot
- Composition accounts for much of it
- Location obviously is a major player, but so is composition

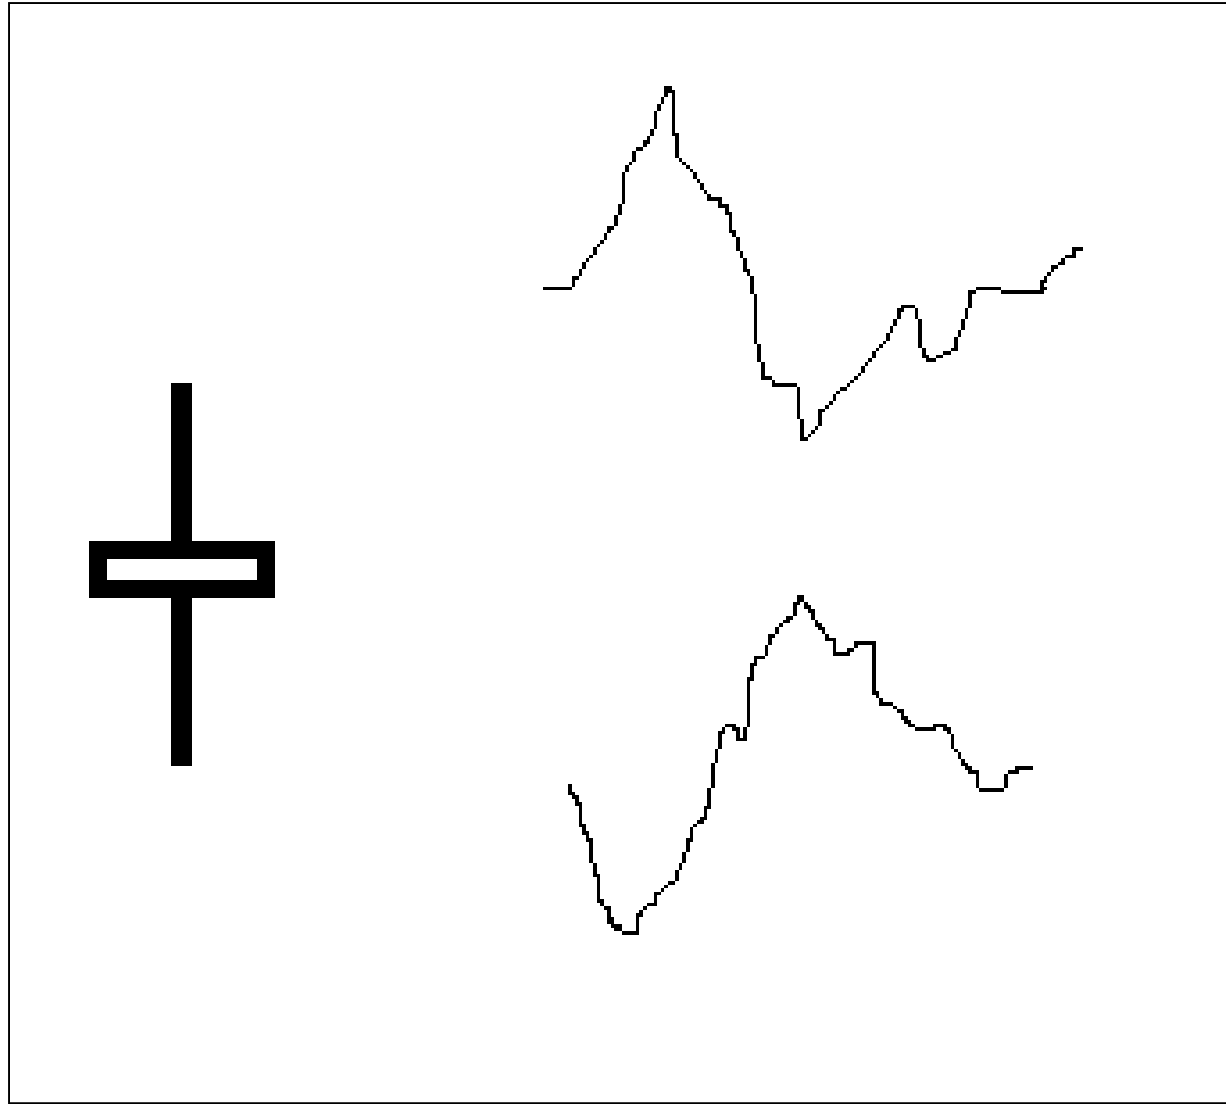

# Accuracy

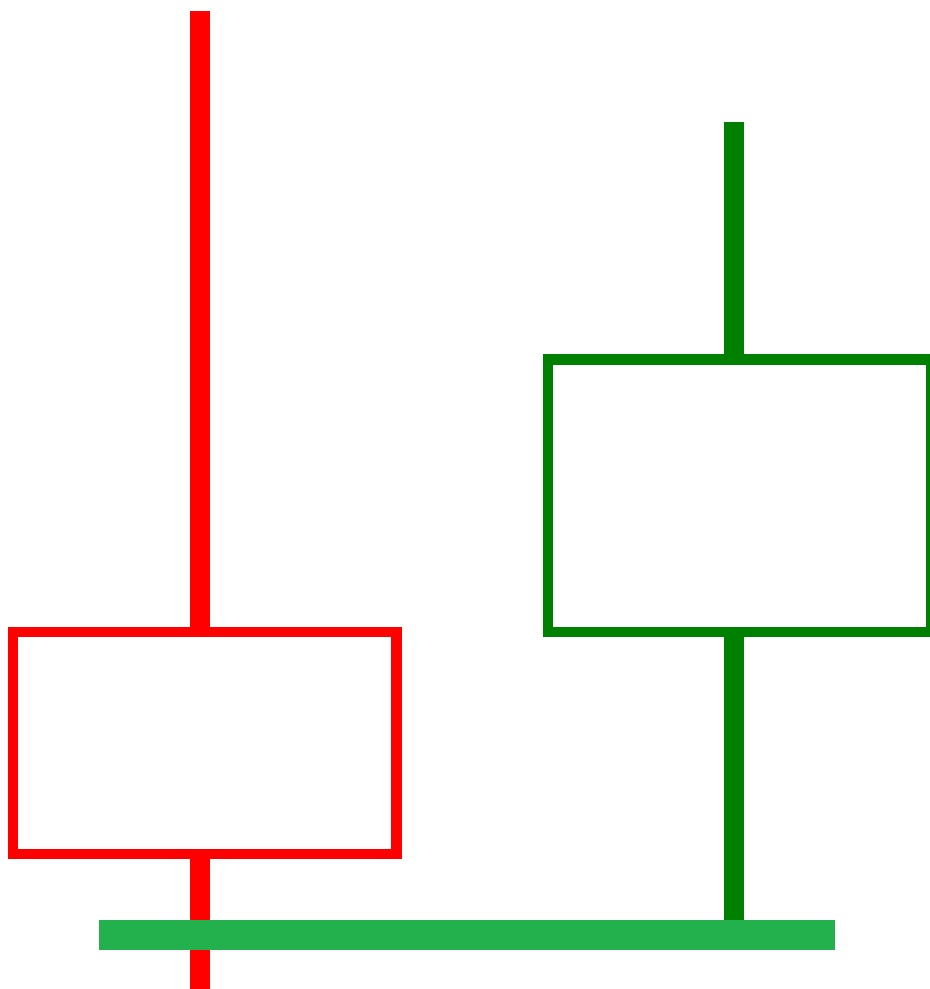

- Hanging Man at Resistance
  - Apx. 75+% accurate
  - Apx 25% wrong
- Intraday composition may give clues if this is
  - 75%
  - 25%

# What To Look For

- Trending signals
- Fading
- Support and Resistance
- Confirmations
