

Just a few thoughts of what I have found!

does anyone have their own wisdom they would like to add!

- **Forex is great but you trade at your own risk! Not mine!**
- **Find a good honest broker that doesn't bet against you-I use OANDA**

- **The more tools you use the more you lose! One or two is lots-really!**
- **Multi-Time frames are the key to trading forex.**
- **The higher the time frame the easier it is to see the trend & so trade.**
- **Use lower time frames as for buy & sell signs.**
- **Learn as much as you can from anywhere you can.**
- **KISS works best (keep it simple smarty)**
- **Follow the trend- till you can don't trade!!!**
- **Follow your trading plan- till you can don't trade!!!**
- **Learn to draw Trend lines - Support & Resistance & Channels- Its money in the bank.**
- **You will have loses – So have a stop loss always - I use 35 pip SL.**
- **Don't be the 1st one to the party- Don't be the last one to leave the party.**
- **You don't have to get every "pip-pip" to have fun**
- **EUR/USD, USD/JPY, USD/CHF, EUR/JPY Are the easiest to trade and in that order**
- **Price is a false mistress- momentum is a faithful wife!!**
