RAPTOR II PORTFOLIO BASICS

- Method focuses on buying stocks that have dropped in the short term
- Trades the entire universe of stocks
- Trades Long only – Usable for Call Options
- Volume Liquidity Filter
- 20-day, and 200-day SMA
- 2-period RSI
- 10-period ADX
- 100-day Historical Volatility (Volatility Standard Deviation)
- System portfolio has a max of 10 open positions.

RAPTOR II PORTFOLIO

Divide your account into 10 slots. ($\$50,000/10 = \$5,000.00$).

When a trade is initiated, it occupies 1 slot. ($\$5,000.00$).

If there are more Raptor II Portfolio stock candidates available than open slots allowed, then only place orders on stocks with the highest 100-day Historical Volatility. You should never have more than 10 open positions.

Let's Look At The
Raptor II Portfolio Rules
and
Trade Examples

PORTFOLIO – LONG FILTER

If the 20-day ma of the Close*Volume of stock is greater than the (65-day ma of the Close*Volume of SP500) times .000003, it's a candidate to trade.

Example:

A = Stock*Vol **B** = 20-day ma of **A**

C = SP500*Vol **D** = 65-day ma of **C**

F = **D***.000003

If **B** is larger than **F**, then the stock is a candidate to trade.

S&P 500 Index uses NYSE Volume. **Note:** Some data vendors divide the NYSE volume by 1000 or 100. Please account for this in the above formulas.

RAPTOR II PORTFOLIO

TWO OPTION SPREADS
TO TRADE WITH
RAPTOR II
(DISCUSS WITH YOUR BROKER)

BULL – CALL SPREAD

- Assume stock is trading at Raptor II buy price of 18
- Simultaneously purchase 20 Calls / Sell 25 Calls
- Assume stock price jumps to 35
- Must provide 100 shares to the buyer of the short call at \$25
- B-C Spread allows trader to buy the shares at \$20 and sell them for \$25
- Discuss With Your Broker

BULL – PUT SPREAD

This strategy is constructed by *purchasing one put option while simultaneously selling another put option with a higher strike price*. The goal of this strategy is realized when the price of the stock stays above the higher strike price, which causes the short option to expire worthless, resulting in the trader keeping the premium. This type of strategy is also known as a *Credit Spread* because the amount received by selling the put option with a higher strike price is more than enough to cover the cost of purchasing the put with the lower strike price.

FREQUENTLY

ASKED

QUESTIONS

How do I receive the daily set-ups?

We will provide you with Tradestation and Amibroker code which contain the complete rules of Raptor II. Each evening your software will scan through thousands of stocks in search of the ones that are able to meet its strict criteria. In addition to this, you will be able to receive the daily set-ups from a private password protected website that we maintain at all times.

How do I place my orders?

You will place your orders for the upcoming day before the open. Most orders will be limit orders and you can find out anytime during the day or after the close whether or not your orders were filled.

Can I “double-up” on my position?

Never, ever add to an already existing stock position, regardless of which or how many portfolios you are trading.

Can Raptor II trade low-priced stocks?

Yes. Many of the equities contained in Raptor II’s universe of stocks trade under \$10. This is where you’ll find the large percentage gainers.

Is there a tutorial?

Yes. We provide you with an online system handbook so you can fully understand the Raptor II Method. It will take you under 30-minutes to master the material.

Dear Trader,

Thank you for purchasing the *Raptor-II Trading System*.

This homepage contains everything you need to learn and use the *Raptor-II Trading System*.

If you look to the left, you will see the "Online Presentation" link for the *Raptor-II Trading System*. These links will bring you to an audio/video recording of an online presentation where I will walk you through each aspect of the *Raptor-II Trading System*. My presentation covers the methodology, the testing results, how to setup your portfolio, and a number of trading examples.

The "Presentation Notes" link take you to a PDF copy of the online presentation notes to help you follow along with my presentations. After downloading and saving the file, you can print it out or simply review it on-screen after the presentation.

The link to the "Raptor-II System Handbook PDF" will take you to a document that will serve as a quick reference for you regarding the *Raptor-II Trading System*. You can also print this out and refer to it when necessary.

The "Setups" link takes you to pages containing the *Raptor-II Trading System* setups for the next trading day. These setups will be updated by 7:00 p.m. ET (4:00 p.m. PT) every trading day for you to review.

If you have any questions, please feel free to contact me at raptorII@tradingmarkets.com

Once again, welcome to the *Raptor-II Trading System* and good luck with your trading!
